

Run

Variables x

```
"D:\school\COP1000C\repo clone\.venv\Scripts\python.exe" "D:\school\COP1000C\repo clone\Variables.py"
```

```
5 multiplied by 6
```

```
The answer to your query is: 30
```

```
8 divided by 3
```

```
The answer to your query is: 2.6666666666666665
```

```
8 divided by 3 with modulo 3 (remainder only) without the remainder
```

```
The answer to your query is: 2
```

```
8 modulo 3 (remainder only)
```

```
The answer to your query is: 2
```

```
4200000 add 23090
```

```
The answer to your query is: 4223090
```

```
4200000 subtract 7633
```

```
The answer to your query is: 4192367
```
